What i envision for the meeting.

Deliberative Process / Ex. 5

1a. What has Mountaire since violating permit to provide safe drinking water to residents?.

2. Allow mountaire to present their ground water flow data and topics. V

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

3. Would like to know how long mountaire has been operating the spray irrigation above the permitted value of 15?

4. When do they plan on returning to the permitted value?

4 a. What are they doing in the interim to address higher levels being applied to land until they meet the permit values? What are they doing to eliminate/ reduce their source of nitrate to groundwater?

5. Monitor wells installed in the south west portion of property would help determine flow. Also would see this event migrating off property

5a. Have they identified all potential sources of nitrates from Mountaire which could enter ground water?

6. What options is mountaire currently considering for permanent water. Have they already looked into cost estimates?

7. Present monitor well data in a format showing nitrate levels over time. Has there been an increase in down gradient wells over time?

8. Also curious since they are presenting ground water flow information did they estimate average ground water flow velocities in the area.

Andy, I didn't want to wait to get the room reservation in so.....  
I have requested a room for 12-15 people for Monday from 10:30 am - 12:30 pm  
Conference style room set-up  
I have asked for a computer projector and wireless access for our guests.  
I have informed security that there will be outside folks attending.

As soon as we have a room I'll let you know.  
If you want anything changed let me know.

We are confirmed for our meeting with Mountaire on February 12, 2018 at 10:30.

Can we put together our list of topics that we want Mountaire to present for us, so that we can send it off today or tomorrow?

Also, please let me know what our AV capabilities are so that I can let Brian Rosenthal know.

Thank you,

Andy

Hi Brian, just following up to see if you know whether Feb 12<sup>th</sup> is still possible.

Also, please let me know who will be attending and whether you will need any Audio Visual equipment.

Thanks,

Andy
